

# Maintenance Online Training (Power Cable production)

Is your production stable and the staff knows how to maintain the components? Do you need to secure the operation and minimize extra downtime?

Participate in an online maintenance course and get a boost of knowledge.

## Summary of the course:

- Overview of typical Maillefer power cable lines and its components and machinery
- Systematic maintenance education for the main components in the power lines

Duration: 1 day course, 6 hours online

Material will be sent in pdf format

Price: 1000€/p.p and email address, Minimum 4 persons / course
